

Harbinger Systems to Exhibit at the 19th HR Technology Conference and Expo in Chicago

Visit booth #549 and experience how Harbinger can help HCM vendors transform their HR centric solutions to Employee centric solutions

PUNE, INDIA; REDMOND, WA, SEPTEMBER 21, 2016

Harbinger Systems, a global company providing software technology services, today announced that it would be exhibiting at the HR Technology Conference & Exposition, from October 4–7, 2016. A community of 8,500+ will gather, at Chicago’s McCormick Place, for four days. The conference is themed on leveraging technology to drive HR strategy and achieve organizational success.

“The new age workforce is driven by instant and open communication. Many firms nowadays are moving away from the culture of annual reviews. They are now focusing on continuous feedback initiatives to boost employee engagement levels. We also see many human resource functions making use of analytics and integrated data-driven solutions to make effective fact-based human capital decisions”. Says Shrikant Pattathil, President, Harbinger Systems. “At the HR Tech Conference and Expo this year, Harbinger looks forward to new possibilities in the HCM sector.” He added.

Harbinger Systems, has a broad experience in providing Human Capital Management (HCM) solutions, from Recruit to Retire. Over the span of fifteen plus years, Harbinger has helped leading HCM product companies to go through digital transformation. Our enterprise product engineering capabilities coupled with employee centric product design experience, has helped several leading HCM companies to build award winning next-gen solutions to empower talent and achieve successful business results.

At the HR Tech conference, Harbinger would be showcasing two of its employee centric apps which have been designed by our HCM Thought Leaders and industry experts. By leveraging the feedback data received from these apps, one can perform sentiment analysis on top of it to understand the engagement level of employees. Furthermore, this feedback can be integrated with annual performance reviews to make them more effective and identify training needs in the organization.

You are invited to visit Harbinger at Booth #549. To pre-book a meeting with our HCM Thought Leaders/Experts and to discover how Harbinger can create value for you, please write to us at hsinfo@harbingergroup.com. Harbinger looks forward to interacting with product companies and industry experts at the HR Tech Conference.

About Harbinger Systems

Harbinger Systems is a global company providing software technology services for independent software vendors and enterprises, with a specialization in product engineering. Since 1990, Harbinger has developed a strong customer base worldwide.

Harbinger Systems builds software solutions leveraging social, mobile, analytics, and cloud (SMAC) technologies and IoT (Internet of Things) for domains such as human capital management (HCM), healthcare, eLearning, and publishing.
